Dr. Lee, The Doctors, and a turkey waddle...

So my husband (Dr. Rebish) and I had just come back from a relaxing 4 day vacation in Cabo, when I received an call from a producer from The Doctors: They were working on a Thanksgiving segment, and could I find a mother-daughter pair where the mother wanted Tickle Lipo on her "turkey waddle", and the daughter wanted a noninvasive treatment to help prevent a future "turkey neck". Also,

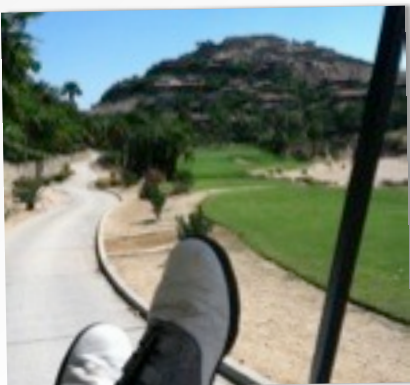

could I find a device to perform the aforementioned noninvasive treatment for the daughter, and could this all be put together in 3 days, to be filmed live in Paramount Studios 7 days thereafter? So, I took a long, deep breath, and jumped right back into work!

Watch The Doctors on Friday, Nov 19th, to see what we put together! Cheryl is the lovely mother - we

performed Tickle Lipo on her neck with great results. Shannon, her gorgeous daughter, got a noninvasive skin tightening treatment with a brand new radiofrequency tissue tightening device, the Reaction, by Viora.

Did I say THANK YOU to my awesome staff for putting up with me and helping to make things great? I do love them!
